

Notes from the Founding Chairperson, Editorial Team

It is with great pleasure that I pen these words as the Founding Chairperson of Journal of Biological and Allied Sciences (JOBAS) the flagship journal of the Faculty of Life Sciences. About 4 years ago, I conceived the idea of establishing a journal that would showcase the cutting-edge research and scholarly work of our faculty, and I'm thrilled to see it come to fruition with the publication of our first edition. Journal of Biological and Allied Sciences is a testament to the tireless efforts of our dedicated team and unwavering support of our faculty members. I am confident that it will go on to become a leading platform for disseminating knowledge and driving innovation in the life sciences.

Prof. A. T. Oladiji, FNSBMB, FNISEB, FAS

Former Dean of Faculty of Life Sciences
